

Special Consent for MRI Imaging with an Enhancement Agent Advanced Medical Imaging CT/MRI

Your physician is requesting a MRI image using an image enhancement agent. The use of this agent greatly enhances the diagnostic capabilities of the MRI. The agent used by our hospital is approved by the Food and Drug Administration. If you have questions about the agent please ask the Technologist. If you think you have a medical condition that could be aggravated by the agent, please tell the Technologist. We will talk with your physician and determine whether the agent can be administered.

A Technologist will be monitoring you during the exam. If you are experience any symptoms of a possible side effect a physician is immediately available.

You may request to have an MRI without the image enhancement agent without adversely affecting your medical care at this facility. Prior to having this exam we suggest you talk with your physician about the purpose of the exam, what will be done, the risks and benefits of the exam and any information about possible adverse reactions to the agent.

If you have questions, please call Advanced Medical Imaging or your physician.
